

My friend from the neighbouring village is well off.

How can we get enough crops to be as well off as they are?

Well, why don't we go to the next village to find out the secret?

Hello!  
It's been a long time hasn't it?

We came here to find out why  
your village is so prosperous.

Welcome!  
You'd better go and see our village  
chief and ask him the reason.
