

Under the tree

Under the Trellis

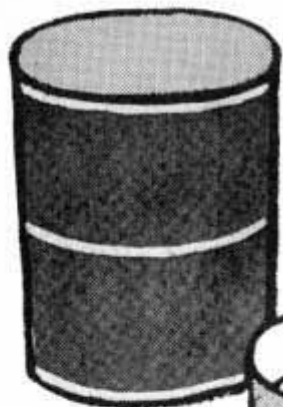

If it is summer, select a place that is under the tree or under the trellis.

TIME AND PLACE OF PLANTING

If it is rainy season, select a place that is shaded and free from rain with good drainage or under the house.

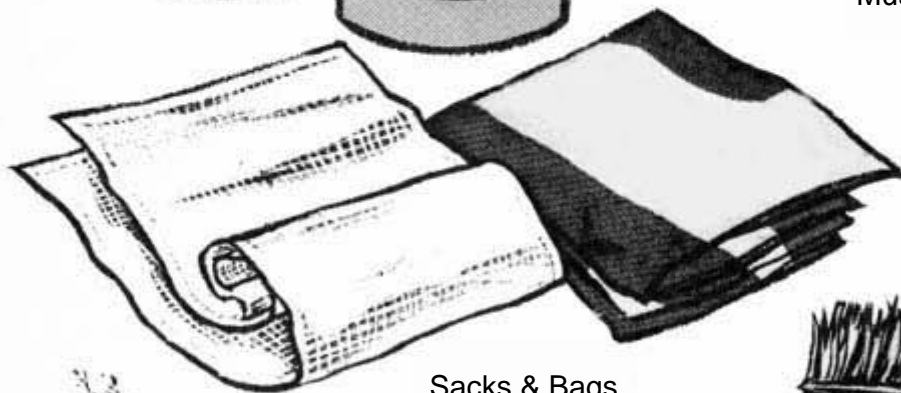

NECESSARY MATERIALS

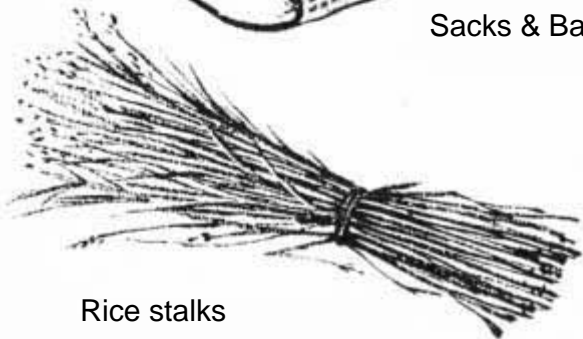

Drum

Mushroom Spawn

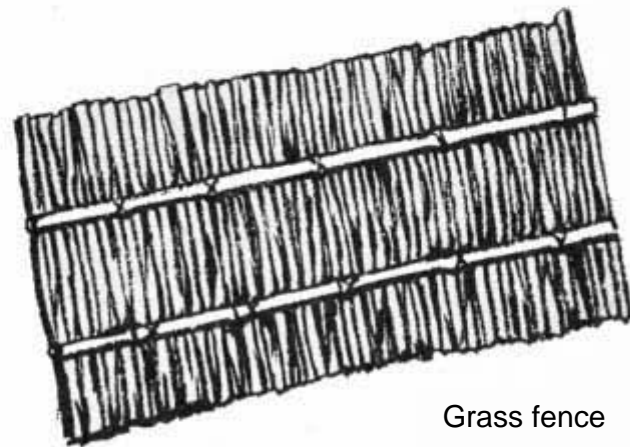

Sacks & Bags

Rice stalks

Cogon grass

Grass fence

Cut dried banana leaves about two feet long each.

Bundle banana leaves as big as thigh or one foot wide.

Soak the bundle of dried banana leaves until all are wet.

Clean and disinfect the place where the mushroom bed will be placed.
