

REFLECTIONS

INDO-JAPAN TEACHER EXCHANGE PROGRAM

The school visits were marked with many impactful events from hands-on experiential learning, core competency and acumen development in learners, strong ICT integration in teaching learning process etc. The events which touched me and made indelible mark were Koto performance by the students at Koshigaya Kita High School and students' engagement in the mandatory school cleaning.

The wonderful school curriculum and project-based approach on Satoyama regeneration celebrating the connect with nature and traditions along with spirit of inquiry in young learners at Tokyo Yurikago Kindergarten was truly exceptional and unique.

REFLECTIONS

INDO-JAPAN TEACHER EXCHANGE PROGRAM
